

# Lady Manners School

## Curriculum Principles

- The best interests of students are always prioritised
- Our curriculum is ambitious, inclusive and innovative and meets the needs of all students
- We follow a rich, knowledge-engaged curriculum that enables students to thrive and become resilient, lifelong learners
- Our curriculum remains as broad as possible for as long as possible and exceeds the scope of the National Curriculum
- An appropriate breadth of qualifications is offered to students to reflect their individual needs and aspirations
- Students are equipped with knowledge and skills that enable them to make positive contributions to the local, national and international communities of which they are part
- Opportunities for personal development are actively promoted through an extensive and diverse wider curriculum that enables students to acquire cultural capital
- Learning takes place in a sequential manner across the curriculum to ensure that key facts and information are embedded in long-term memory and students are fully prepared for the next steps in their learning
- Literacy is promoted across our curriculum
- We are outward-looking and collaborate with external partners to provide an engaging and relevant curriculum that reflects our local context
